AIMS AND SCOPE

The *Journal of Economics and Policy Analysis (JEPA)* is a refereed and accredited scientific biannual publication of the Department of Economics, University of Lagos, Nigeria.

JEPA aims at publishing theoretical, empirical and policy articles in the following disciplines (and cognate subjects): economic theory, development economics, money and capital markets, corporate governance and public policy and analysis. The mission of JEPA is to publish and disseminate scientific knowledge from any academic school of thought. Authors may prepare papers for the Journal on country-specific economic or public policy issues, or issues of international/cross-country coverage.

Given its broad-based orientation, *the Journal of Economics and Policy Analysis* is aimed at serving as a forum for the dissemination of a blend of issues that would be relevant to the academia and policymakers. Its focus would engender practical relevance in the treatment of issues without losing out on a solid theoretical base. Given its immediate environment, the Journal is blazing the trail among other industry relevant journals, as it provides a solid theoretical base in discussing issues, as well as ensuring industry relevance in analyses.

The Journal, therefore, welcomes the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers must be submitted with the understanding that they have not been published elsewhere and are not currently under consideration by another journal. The journal accepts manuscripts in English language only.
